

April '24 – June '24

The UK Biochar Research Centre teams up with ENCHAR to announce the 10th Green Carbon Webinar Series. Each webinar features two 25-minute talks about current research projects or company profiles in the field of advanced carbon materials. The presentations are followed by a live discussion with the audience.

Call for speakers

We invite ambitious researchers, professionals, and companies to apply by

14th April 2024

to c.wurzer@ed.ac.uk

Topics

- Biochar – Hydrochar – Activated carbon
- Production, application, commercialisation
- Presentation dates April '24 - June '24
- See www.greencarbonwebinar.org for previous topics

How do I register as a speaker?

- Send an abstract of your presentation
- Include information about yourself: e.g. affiliation
- Send to c.wurzer@ed.ac.uk before 14th April 2024

Why get involved?

- Participate in a webinar series focussing on cutting-edge research and applied science
- Increase your visibility through freely available online presentations
- ~1500 registered participants

The webinar is free of charge for all participants

Organised by ENCHAR and the UK Biochar Research Centre

April '24 – June '24

How the webinar works

- Sessions will take place on Thursdays at 4 PM Central European Summer Time / 3 PM British Time Zone.
- 2 presentations á 25 min per session followed by a short discussion.
- The webinar will use the 'Zoom' platform - <https://zoom.us/join> .
- Interested participants only require a link to join the presentation, which will be distributed via the registration e-mail list.
- The lectures will be recorded and uploaded to a dedicated YouTube channel to increase the visibility and audience beyond the live sessions.

Visit www.greencarbonwebinar.org/videos for recordings of the previous presentations

Audience

- The webinar audience consists mainly of academics and professionals
- Webinar invitations are distributed per e-mail lists of participating research groups
- The webinar series is promoted in relevant organisations (e.g. IBI, USBI, EBI,...)
- The recorded presentations are uploaded on a YouTube channel and our website

Organised by

The webinar series is organised by Christian Wurzer, CTO of Enchar, and research engineer at the UK Biochar Research Centre at the University of Edinburgh, Scotland.

ENCHAR simplifies the sale and procurement of biochar through a serviced online platform at www.enchar.co. The team of experts at ENCHAR identifies the needs of prospective biochar users and connects them with the right producers to jumpstart the biochar industry.

Since 2009, the UK Biochar Research Centre (UKBRC) has led strategic, multidisciplinary investigations of biochar. With a special focus on biochar production, engineering, and application, the UKBRC is determined to further develop the biochar industry.
